SHUFFLE MIXTEL BLACK BELT

Unlimited Man

Power on

Push Button #1

Assent of players will appear, then a black screen will appear for about 10 seconds, quickly tap the reset button and you will receive unlimited men. The graphics will be a bit messed up, but only in screen #1.

Goal

Kick and punch his feet, get him in the corner, don't let him pass. By forcing him into the corner he will die.

Hand

Punch him when he is in the air. High kick, keep punching and keep running back and forth across the screen he will die.

Goal

To kill him back up to the wall on the left side of the screen. When Gai punches, you must kick him. Don't try to punch or high kick. You only need to kick him once for every punch he delivers to you. If you look as if your power will run out first since he gets the first punch, but it won't.

Goal

This is a time factor fight. When he jumps, jump over him. When L. charges, run away then attack him FAST!

Goal

The only way to kill Rita is to kick her in the air while she is descending at an angle towards you. When you kick her in the air she will stay (for a brief time) suspended above the floor, about one and a half inches, at this time you must punch her. You should be able to get 4 or 5 punches in before she lands back down on the floor. The only way to finish her off is by kicking her in the air one last time.

Wang

Right after you kill Rita the screen will change and you will be attacked by Wang! Get into the corner and squat down. He will jump in the air and land on top of you. Just keep punching (don't give up) until the power meter for Wang won't go down any further. Let him up, as he falls back give him one more good punch! That's it!

The RED FLYING NIGHT and the FLYING BUSH are energy boosters, use the super jump to catch them.
